

16th International Conference on Orienteering Mapping 10 July 2014, Lavarone, Italy

INVITATION AND CALL FOR PRESENTATIONS

The IOF Map Commission welcomes you to the 16th International Conference on Orienteering Mapping (ICOM) that will take place in conjunction with the World Orienteering Championships 2014 in Lavarone, Italy. The conference has become a traditional event where mapmakers and map interested from around the world discuss and share information about the latest mapping standards, techniques and developments in a relaxed and informal atmosphere.

We are convinced that the 16th ICOM will live up to the successes of its predecessors. The programme will be arranged to make it possible for you to take part in the public races and other important events.

The Map Commission would in the 16th ICOM like to focus on the use of LIDAR data.

In addition to LIDAR data, the ICOM should also include presentations on other topics of interest to the world's community of orienteering mappers. The revision of the ISOM 2000 specification is ongoing, and will be on the agenda.

All kinds of maps are welcome for the discussion in the breaks and the general Map Exhibition. Maps can be sent to the address below or taken to the ICOM.

Suggestions for both topics and presentations are very welcome. Please send your proposals to IOF Map Commission member Flemming Hjorth Jensen (f.hjorthen@gmail.com) before 15 June 2014. If you are suggesting presentations, please specify both the title of the presentation, the presenter, and a brief synopsis of the presentation.

Once again, the IOF Map Commission welcomes you to Lavarone, Italy and we look forward to meeting you there.

LOCATION

The Thursday conference will take place in Lavarone. The exact location will be published on the Map Commission page on the IOF website, <http://orienteering.org/about-the-iof/commissions/map-commission/>. Inquiries about the more specific location in Lavarone can be sent to f.hjorthen@gmail.com.
