Still active now and currently member of Lahti club LS-37: I'm studying Sports Coaching and Management in Haaga-Helia University of Applied Sciences in Vierumaki (FIN).	I lived for 7 months around Adelaide and I did exactly what every orienteering lover and mapper would do. And that was a dream come true! With the support of Aus WOC team members Bridget and Simon, but also with new ideas and visions, my experience there went smoothly. I always had lots of juniors, kids, elites and parents at training sessions (from sprint intervals to punching competitions, time-trials and sand dunes training with a map 100% generated from lidar), and we had so many different activities that I've been extremely busy. I stayed with different families and I experienced different cultures: everything is so different than in Europe, from the people's behaviour to the landscapes, but believe me: it's unique. If I had some free time, I've always used it to make some sprint maps in interesting areas or developing new ideas for o-exercises... maybe it was my fault but I love to be busy with orienteering. Of course I enjoyed spectating the Tour Down Under, the Clipsal 500 and some cricket matches, and I travelled with my new o-friends to NOL events in Queensland, ACT and Tasmania; plus we had a training camp in New Zealand! During these 7 months I added more experiences on my CV and now I got a seat in DP in Sports Coaching and Management at Haaga Helia University in Finland. I introduced the sport in my country as it was unknown before. I created several maps of schools, parks and villages and organized many local events. I took part in international orienteering events such as WOC, SEEOC and COMOF. I am the secretary of the Cyprus orienteering federation (KOMOAAP)	(Please see above as well) I introduced orienteering in schools and this year helped to introduce it in the army. We have a working relationship with the Ministry of Education. I gave several lectures to school teachers so that the sport can become part of the school curriculum. We had many events organized in schools. I mapped several villages and assisted in having orienteering events with the local inhabitants taking part. Further to this I mapped a few summer camps belonging to Unions, or other public bodies where we organize annual events. We assist them in buying simple equipment so that they organize events	21 - 50	More than 50	Power point presentations explaining the sport. Publication about reading the contours.
