

Proposal for the OFE Annual Meeting

Implementation of Sprint Relay into the programme of the European Orienteering Championships

The EWG suggests implementing Sprint Relay into the programme of the European Orienteering Championships from 2016 onwards.

The format should be the same as for the WOC Sprint Relay.

Motivations:

- Sprint relay is a newly developed format and it has been included into the World Orienteering Championships programme from 2014,
- this proposal is endorsed by the FootO Commission and by the Athletes' Commission.

The EOC 2016 organizers are ready to implement this proposal into the EOC 2016 program.
