Point calculation / scoring

1. Each competitor's total score is the sum of her/his 7 best point scores out of 9 World Cup competitions. In the unlikely event that the result of a competition is voided, the number of results to count in the total score will be 6.
2. The 35 best competitors in each class shall obtain points as follows: 60, 50, 45, 40, 36, 33, 30, 28, 27, 26,, 3, 2, 1.
3. If two or more competitors share a place in a competition, they all receive the higher point score.
4. In the case of an equal total score for two or more competitors, the best single score decides, then the second best, the third best, etc. If they are still equal, the placing in the last competition of the World Cup is decisive, even if it is not among the 7 best results.
